You may get a Carer Allowance for each person you care for providing they meet the disability requirements and you meet the daily care requirements. For an adult care receiver to qualify more than one carer for CP (adult), they must have been assessed and rated under the ADAT and given a score of at least 80, being a score calculated on the basis of a total professional questionnaire score of at least 32. There are no employment, education or volunteering restrictions on the Carer Allowance. This chapter contains the following sections: Last reviewed: 20 March 2015 Carers may be eligible for specific financial support payments from the Federal Government to assist with their living costs, providing they live in Australia and meet residence requirements. Act reference: SSAct section 197E Qualification-child who has a terminal condition Policy reference: SS Guide 1.1.G.55 Grandfathering arrangements (CP (child)), 3.6.4.33 Qualification for CP (child) - Child who has a Terminal Condition Additional carers (adult & child care receivers) An additional medical assessment is NOT required in cases where a second carer claims CP in relation to a care receiver who has already qualified a carer for CP. Carer SupplementThe Carer Supplement is an annual payment of \$600 which is attached to each Carer Allowance. The Supplement is paid in July each year. Other paymentsThere are a range of other payments which carers can get under some circumstances. Not be employed, in education or volunteering for more than 25 hours a week Carer AllowanceThe Carer Allowance is a fortnightly payment to carers of someone with a severe disability or illness or who is frail aged to assist with the additional costs of caring on top of their usual costs of daily living. The cost of medical examinations or reports completed by a THP for the purpose of claiming CP is the responsibility of the claimant. They cover such things as special payments to carers of children with disability, payments to assist with the costs of raising children, incontinence aids and the running of medical equipment and medically required temperature control. Carer PaymentCarers who provide full-time care may be eligible for the fortnightly Carer Payment to help them meet their basic costs of living. This payment is available to carers of: someone with a disability (including a serious mental health condition) someone with a severe illness someone who is frail aged 2 to 4 children younger than 16 whose needs add up to the same as 1 child with severe needs 1 or 2 children younger than 16 and 1 adult whose needs total the same as 1 child with severe needs. Medical evidence (1.1.M.110) about the care receiver (1.1.C.20) is used to determine whether the care receiver's need for constant care will qualify an applicant for CP. Last reviewed: 4 January 2016 Page 2 Guides to Social Policy Law Social Security Guide Version 1.289 - Released 20 January 2022 This chapter contains the qualification and payability provisions applying to payments in the disability and carer grouping. Medical evidence would generally be provided by the care receiver's treating doctor but may be provided by any THP from the approved THP list CP (adult) or the approved THP list CP (child) (1.1.T.170). Eligibility for the Carer Payment For a carer to qualify for the Carer Payment, they must: Meet an income and assets test Care for a person, or people, who have been assessed as meeting a minimum disability score assessed through the Adult Disability Assessment Tool (ADAT) or a Carer Needs Assessment (for a child under the age of 16) - a health professional currently treating the person must complete these forms. Who pays for the medical assessment? Medical evidence - child care receiver aged under 16 years If a person makes a claim for CP (child), for a care receiver aged under 16 years, a professional questionnaire must be completed by a THP for each child in respect of whom CP is being claimed. Eligibility for the Carer Allowance Everyone on the Carer Payment will automatically receive the Carer Allowance. However, the Carer Allowance is also available to carers who: Provide daily care Care for someone who reaches an eligible score on the Adult Disability Assessment Tool (ADAT) or a Carer Needs Assessment - see above Has a household income of under \$250,000 per year. Note: If a person makes a claim for CP (child) for a child with a terminal condition (3.6.4.33), a medical practitioner must certify the child has a terminal condition and the average life expectancy for a child with the same or a similar condition is not substantially longer than 24 months. Claimants should be advised that if there is likely to be an unavoidable delay in obtaining a THP assessment, they should contact DHS to arrange an extension of time to submit the HPA (adult) or professional questionnaire (child). Note: For CP purposes, if a person makes a claim for a child or an adult with a terminal condition, a medical practitioner must certify that the child or adult has a terminal condition. Act reference: SSAct section 197B Qualification-child with a severe disability or severe medical condition, section 198 Qualification-disabled adult or disabled adult and dependent child Policy reference: SS Guide 3.6.4.10 Qualification for CP Who can provide medical evidence? For a child care receiver, a THP must certify a specified number of carers required to provide personal care to the care receiver. Qualification for the second carer is established on the basis of the care they provide, as detailed in the carer questionnaire they must complete, combined with the medical evidence already available. Example: In a remote area, a medical report from another doctor such as a doctor of the Royal Flying Doctor Service, the Aboriginal Medical Service, or a Community Health Centre would be acceptable. However, the cost of a consultation may be claimed through Medicare if the medical assessment was completed during a consultation in which an examination of the care receiver occurred. The information must be in the form of a professional questionnaire which is completed by the THP and forms part of the ADAT.

Centrelink Assistance for Isolated Children line. Use this line if you're a parent or carer of children who can't go to a local government school because of geographical isolation, disability or ... the carer is under age-pension age and any of the care receivers has died Defence Force income support allowance (DFISA) payable to you on a day when the whole of your social security ...
